# SURVEY OF FINANCIAL CONDITION OF VETERANS RECEIVING NON-SERVICE-CONNECTED DISABILITY PENSIONS

## BASIS AND PURPOSE

Pursuant to request of the chairman, Committee on Veterans' Affairs, House of Representatives, a survey has been made to determine the financial condition of a representative number of veterans currently receiving non-service-connected disability pensions under laws administered by the Veterans' Administration.

## SCOPE

Veterans' Administration (hereafter VA) records show that as of July 31, 1957, 677,330 veterans (607,878 World War I; 66,087 World War II; and 3,365 Korean conflict) were receiving non-service-concented disability pensions through 66 VA regional offices and 1 veterans benefits office. Our survey was limited to the VA regional offices located at Atlanta, Ga.; Baltimore, Md.; Boston, Mass.; St. Louis, Mo.; and San Francisco, Calif.; and to a representative number of the some 67,800 pension cases administered by these 5 regional offices. The cases were selected from VA regional office files on a random basis, through the use of IBM equipment, without knowledge of any details of individual cases.

Married veterans, as referred to in this report, are those veterans who were married and living with spouse, those who were married but living apart from spouse, and those who were widowed or divorced but with minor children. All others are referred to in this report as single veterans.

Sixteen hundred veterans whose pensions were awarded prior to January 1, 1956, and who were currently receiving pension payments, were interviewed principally as to their marital status, employment status, income for the calendar year 1956 and the first 6 months of 1957, assets and liabilities, and length of military service.[1] The veterans were interviewed also as to income, assets, and liabilities of their spouses, and in certain instances the spouses were interviewed. In many instances, other informed persons were interviewed or pertinent records were examined to substantiate the data furnished by the veteran or spouse. For the most part, however, information as to income, assets, and liabilities of veterans and spouses, as presented in this report, is as furnished by the veterans.

Approximately 66 percent of the veterans interviewed resided in the city in which the VA regional office was located or within 50 miles of that city. The remaining 34 percent resided at other locations throughout the areas administered by the 5 regional offices.

[1] See appendix 9 for copy of interview data sheet.

## BACKGROUND INFORMATION

To be entitled to a pension for a non-service-connected disability, a veteran must be permanently and totally disabled, he must be credited with 90 days or more service during either World War I, World War II, or the Korean conflict, unless discharged sooner for line-of-duty disability, he must have been discharged under conditions other than dishonorable, and his annual income must be $1,400 or less if unmarried or $2,700 or less if married or with minor children. The pension rate is $66.15 a month, increased to $78.75 a month on attainment of age 65 or after continuous receipt of pension for 10 years, except for those veterans who are in need of regular aid and attendance, where the rate is $135.45 a month. (See appendix 7.)

Veterans receiving pensions are required to file annual income questionnaires with the VA at the beginning of each calendar year. The veteran is required to report his actual income for the prior year and his expected income for the current year. In determining anual income for statutory income-limitation purposes, the veteran is to include the total income from wages, salaries, fees, commissions, bonuses, earnings, dividends, interest, annuities, retirement benefits,[2] gifts, and public assistance and the net income from businesses, professions, or farms. The veteran is permitted to exclude funds received from the United States Government, under laws administered by the VA, because of disability or death; proceeds of fire-insurance policies; and the separate income of his spouse. (See appendix 8.)

Neither the net worth of the veteran nor the income or net worth of his spouse is considered in determining the veteran's eligibility or need for a pension.

## FINDINGS

The findings with respect to income, liquid assets, and net worth, and related data developed by the survey, have been summarized in 15 tables which will be presented in this report. The findings with respect to assets and liabilities were used for establishing the net worth of veterans and spouses.

At the time of interview, 1,121 of the 1,600 veterans were married, 10 were widowed or divorced but with minor children, and 469 were single. Seventy-four of the married veterans were separated from their spouses. The spouses were not interviewed. These 74 cases are not included in the summarizations of 1956 income of spouses and combined incomes and liquid assets of married veterans and their spouses. In 4 of the 74 separated cases, limited information was obtained from the veteran as to the net worth of the spouses. These four cases are included in the summarization of net worth of married veterans and their spouses. Adjustments were also made in the summarizations for those veterans whose marital status changed during the period covered by the survey.

### *Income*

The 1956 calendar year income of veterans and spouses as developed in this survey includes total income from wages, salaries, fees, commissions, bonuses, earnings, dividends, interest, annuities, retirement

[2] Retirement benefits are not considered by VA as income for statutory limitation purposes until the full amount of the former worker's personal contribution toward such benefit has been received. (See 38 C. F. R 3.228 (c) (6).)

benefits, gifts, and public assistance and the net income from businesses, professions, or farms. Funds received under laws administered by the VA and proceeds of fire-insurance policies were excluded.

Summarization of our findings as to personal income of the married veterans interviewed (table 1) shows that less than 1 percent had 1956 income in excess of the $2,700 limitation, that 75 percent had 1956 income of $1 to $2,700, and that 24 percent had no income in 1956. (See appendix 1.)

## *Net worth*

The value of household furniture, personal clothing, jewelry, and other personal effects; the loan value of life-insurance policies; the indebtednesses for food, clothing, and household furniture and equipment; and the loans on life insurance were not considered in computing net worth of veterans and spouses. The reported net worth is as of the date veteran was interviewed.

Summarization of our findings as to net worth of the veterans, both married and single (table 7), shows that about 4 percent had a net worth of $10,001 to $64,920, that over 4 percent had a net worth of $5,001 to $10,000, that over 42 percent had a net worth of $1 to $5,000, and that about 50 percent had a zero or negative net worth. (See appendixes 4 and 6.)

*Other related data*

(*a*) *Veterans receiving income from annuities or retirement plans.*—Of the 1,600 veterans interviewed, 774, or over 48 percent, had income in calendar year 1956 from annuities purchased under an individual agreement by or for the veteran or from retirement plans, such as civil service, railroad retirement, social security, State, municipal, company, and union. The annuity and retirement benefit payments received in calendar year 1956 by these veterans averaged $991.

Of the 774 veterans, 91, or 12 percent, received income from 2 or more retirement plans exclusive of their VA pension. Five hundred and sixty-nine, or over 35 percent, of the 1,600 veterans interviewed received social-security benefits.

The type of annuity or retirement benefit and the number of each received by the 774 veterans are as follows:

TABLE 9.—*Annuities and retirement benefits received by veterans, calendar year 1956*

| Type of benefit | Number of benefits | Percent of total | Average benefit |

(*b*) *Veterans who waived income from annuities or retirement plans.*—Eleven of the 774 veterans who received income from annuities or retirement plans (table 10) waived a portion of the income, thus bringing their annual income within the statutory limitations for VA pensions.

(*c*) *Veterans and spouses receiving income from other VA benefits.*—Of the 1,600 veterans interviewed, 25 received income from benefits under laws administered by the VA in addition to their non-service-connected disability pensions (table 11). Eleven of the spouses of veterans interviewed received income from some form of VA benefit. The additional income received by the veterans consisted of (1) payments under Government life-insurance policies, such as dividends or disability payments under policies in their own name and payments as beneficiaries under policies of deceased children, and (2) compensation as dependent parents of deceased veterans. The income received by the spouses consisted of payments under Government life-insurance policies, compensation for service-connected disabilities, and compensation as dependent parents of deceased veterans. Three of the spouses received both insurance and compensation payments.

(*d*) *Years veterans were on pension rolls as related to years in military service.*—Summarization of the 1,600 veterans by years on the pension rolls (table 12) shows that 216, or over 13 percent, had been on the rolls for 10 or more years. As previously indicated, our interviews were limited to those veterans whose pensions were awarded prior to January 1, 1956. Thus, all veterans interviewed had been on the pension rolls a minimum of 1½ years.

The summarization shows also that 28 percent of the 1,600 veterans had less than 1 year military service, 45 percent had 1 to 2 years military service, 20 percent had 2 to 4 years military service, and 7 percent had 4 or more years military service.

Seven percent said that, in their opinion, they were able to work at their vocation.

Otherwise, pension may not be paid for any period prior to the date of receipt of the questionnaire or a new claim (formal or informal)."

# INSTRUCTIONS FOR FILLING OUT DISABLED VETERAN'S INCOME QUESTIONNAIRE VB 8-59.

***READ VERY CAREFULLY DETACH AND RETAIN THIS SHEET FOR YOUR FUTURE REFERENCE.***

## GENERAL INSTRUCTIONS

ANNUAL INCOME LIMITATION.—Disability pension is not payable to an unmarried person whose annual income exceeds $1,400 or to any married person or a person with minor children whose annual income exceeds $2,700. If, after you have submitted this form, you begin to receive additional income which would cause your income for 1957 to exceed the annual income limitation applicable to you, you must immediately notify the VA office shown on this form that your income in 1957 will exceed the applicable annual income limitation. If you do not immediately notify the VA office when you begin to receive this additional income, an overpayment will result which may be subject to recovery.

PERIODS COVERED.—Report your actual income for the entire calendar year 1956 and the income you expect to receive in the entire calendar year 1957.

TYPES OF INCOME TO BE INCLUDED.—You must include total income from all sources, including but not limited to wages, salaries, fees, commissions, bonuses, earnings, dividends, interest, annuities, retirement benefits, rents, gifts, public assistance, and income from a business, profession or farm.

TYPES OF INCOME TO BE EXCLUDED.—You need not include income from the following sources:

a. Amounts (except subsistence allowance) received from the United States Government, under the laws administered by the Veterans Administration, because of disability or death.

b. Proceeds of a fire insurance policy.

c. The separate income of your spouse. In determining income the community property laws of the several states do not apply.

## SPECIFIC INSTRUCTIONS

These instructions are numbered to correspond to the items on the face of the form.

5. GROSS WAGES OR SALARY.—In reporting wages or salary, report *gross* income and not "take home pay." DO NOT deduct amounts withheld under a retirement plan or amounts withheld for income taxes or social security.

If room, board, or goods are received as part of your payment for work performed, the estimated values thereof should be included in the amount of wages and salaries reported.

You MUST enter on line 5 the gross amounts of your actual wages and salary in 1956 (col. A) and the gross amounts you expect to receive in wages and salary in 1957 (col. B) even though you do not know the names and addresses of your employers.

7. NET RENTAL INCOME.—Report on line 7 your net rental income in 1956 and your expected net rental income in 1957 from property owned or controlled by you. If you have rental income, SHOW ON PAGE 2: (1) your name and address, (2) your gross rental income, an itemized statement of your expenses on the property, and your net rental income in 1956, and (3) your expected gross rental income, expected expenses (itemized), and expected net rental income from the property in 1957.

Gross rental income includes all cash received as rent and the market value of all goods and services received in lieu of cash as rent. Expenses on the property rented include taxes, insurance, interest on mortgage (not payments on principal), normal repairs, fuel and water (if furnished tenant) and other similar expenses. DEPRECIATION IS NOT A DEDUCTIBLE EXPENSE FOR THIS PURPOSE. Net rental income is gross rental income less expenses.

8. ANNUITIES, RETIREMENT BENEFITS (OTHER THAN FEDERAL OLD-AGE AND SURVIVORS' INSURANCE).—An annuity is an amount paid to you regularly (yearly, quarterly, or monthly) in accordance with the terms of an individual annuity agreement purchased by you or for you.

Retirement benefits include Civil Service retirement benefits, Railroad Retirement benefits, or benefits paid under retirement plans of a state, municipal, or private business or industrial plan.

Report on line 8 the *total amount* you received from annuities and retirement benefits in 1956 and the *total amount* you expect to receive from them in 1957. Except in the cases indicated below, SHOW ON PAGE 2 FOR EACH ANNUITY OR RETIREMENT BENEFIT RECEIVED: (1) the total cost to you of such annuity or retirement benefit

(either through your direct contribution or deduction from pay), (2) the total amount you received before 1956, (3) the amount you received during 1956, and (4) the amount you expect to receive in 1957. You may have this information in records in your possession, for example, in the annuity or retirement benefit plan contract (or policy) or statements sent to you by the company handling the annuity or retirement plan. If you do not have such records, obtain the information from the company which sends you the annuity or retirement benefit check.

DO NOT explain on page 2 if your total income from all sources (line 13) is less than the applicable statutory limitation or if your total income from all sources *except annuities and retirement benefits* (line 13 minus 8) is more than the applicable statutory minimum.

NOTE.—Statutes permit a person who receives Civil Service, Railroad, or D. C. Police and Firemen retirement benefits and whose annual income exceeds the applicable annual income limitation (see General Instructions) may waive a part of his retirement benefits in order to be eligible to receive permanent and total disability benefits from VA.

9. FEDERAL OLD-AGE AND SURVIVORS' INSURANCE (SOCIAL SECURITY BENEFITS).—Enter on line 9 the *total amount* you received in Social Security benefits during 1956 (col. A) and the *total amount* you expect to receive in Social Security benefits during 1957 (col. B).

10. NET PROFIT FROM SELF-EMPLOYMENT OR OPERATION OF BUSINESS.—If you are self-employed or engaged in the operation of a business, either solely or in partnership with others, report on line 10 your net profit from the employment or business in 1956 and your expected net profit in 1957. SHOW ON PAGE 2: (1) your name and address, (2) the business name and address, (3) the nature of the business or employment (e. g., shoe repair shop, painter, general store, etc.), (4) the gross receipts, an itemized statement of the operating expenses, and the net profit in 1956, and (5) the expected gross receipts, expected operating expenses (itemized), and expected net profit for 1957.

Gross receipts include your total cash receipts from sales of merchandise and services and the fair market value of all goods and services received in lieu of cash. The operating expenses of the business or employment include cost of goods sold, rent, normal repairs, taxes (other than Federal income taxes), salary or wages *of employees*, insurance, interest on business debts, and other similar expenses. DEPRECIATION IS NOT A DEDUCTIBLE EXPENSE FOR THIS PURPOSE. Withdrawals (cash or merchandise) or salaries paid to you (or your partners) are NOT items of expense for this purpose.

11. NET PROFIT FROM FARMING.—If you receive income from farming, report on line 11 your net profit from farming in 1956 and your expected net profit from farming in 1957. SHOW ON PAGE 2: (1) your name and address, (2) your gross receipts, an itemized statement of your operating expenses, and your net profit from farming in 1956, and (3) your expected gross receipts, expected operating expenses (itemized) and expected net profit from farming in 1957.

Gross receipts from farming include your total cash receipts from the sale of farm products or services and the total market value of goods or services received in exchange for farm products. The operating expenses of farming include amounts paid for hired labor, feeds purchased, supplies purchased, machine hire, repairs and maintenance of farm buildings (except your dwelling), rent, taxes (other than Federal income taxes), and other similar expenses. DEPRECIATION IS NOT A DEDUCTIBLE EXPENSE FOR THIS PURPOSE. Farm products consumed by you and your family need not be included in gross receipts, but expenses incurred in raising such products must not be included in operating expenses.

12. OTHER SOURCES.—List under item 12 annual income from any of the following sources:

a. Subsistence allowance received from the Veteans Administration.

b. Commercial insurance consisting of lump sum or installments of life, disability, accident, health, or similar insurance.

c. Compensation for unemployment, disability, or death, such as that paid by the Bureau of Employees Compensation (Department of Labor of the United States) or a State compensation or industrial board or commission. You may deduct from the total amount of such compensation the medical, legal, or other expenses incurred by you incident to the injury or death or the collection or recovery of such moneys.

d. Public assistance benefits, such as assistance to the aged, aid to dependent children, aid to the blind, aid to the permanently and totally disabled, etc. Report Federal Old-Age and Survivors' Insurance benefits (Social Security benefits) under item 9 above, not under item 12.

e. Amounts received as gifts from an individual or amounts received from any private welfare or other private charitable organization.

f. Proceeds of bequests and inheritance received in the settlement of estates. Property other than money which is received by inheritance or otherwise need not be reported until such property is converted into cash.

g. Profit (or loss) from sale of any real estate or from sale of other property held only as an investment.

h. Income from any other sources.

## LETTER OF SUBMITTAL

COMPTROLLER GENERAL OF THE UNITED STATES,
*Washington, February 24, 1958.*

B-132962.

Hon. OLIN E. TEAGUE,
*Chairman, Committee on Veterans' Affairs,*
*House of Representatives.*

DEAR MR. CHAIRMAN: Pursuant to your request, the findings included in our report of survey of the financial condition of a representative number of veterans currently receiving non-service-connected disability pensions under laws administered by the Veterans' Administration, furnished to you under date of January 6, 1958, have been projected to the total number of World War I, World War II, and Korean conflict veterans on the Veterans' Administration pension rolls as of July 31, 1957. We have also computed, at your request, the estimated future cost to the Government of pensions to be paid to veterans now on the pension rolls, based on pension rates payable under existing law and the life expectancy of such veterans. Ten copies of our report are enclosed.

The estimated future cost of non-service-connected disability pensions to be paid, at current rates, to the 677,330 World War I, World War II, and Korean conflict veterans on the pension rolls July 31, 1957, exceeds $7.6 billion. This amount becomes particularly significant when considered in connection with the fact that the number of veterans on the pension rolls increased on an average of over 6,000 a month for the 13-month period ended July 31, 1957. It has been estimated that by the year 2000 over 3.3 million veterans will be on the pension rolls.

We are pleased to be of service to you and are prepared to discuss the report with you if you so desire.

Sincerely yours,

FRANK H. WEITZEL,
*Assistant Comptroller General of the United States.*

## SUPPLEMENTAL REPORT—FINANCIAL CONDITION OF VETERANS CURRENTLY RECEIVING NON-SERVICE-CONNECTED DISABILITY PENSIONS UNDER LAWS ADMINISTERED BY THE VETERANS' ADMINISTRATION

### INTRODUCTION

A report on the findings of a survey, made by the General Accounting Office at the request of the chairman, Committee on Veterans' Affairs, House of Representatives, of the financial condition of a representative number of veterans currently receiving non-service-connected disability pensions under laws administered by the Veterans' Administration, was furnished to the committee chairman on January 6, 1958. Our survey findings were developed primarily through interviewing 1,600 veterans in 5 States out of 677,330 World War I, World War II, and Korean conflict veterans on the Veterans' Administration pension rolls as of July 31, 1957.

Subsequent to initiation of the survey, the committee requested:

1. That the findings of our survey be projected to the total number of veterans on the non-service-connected disability pension rolls.
2. That we determine for the committee the estimated future cost to the Government of pensions to be paid to veterans currently on the pension rolls, based on current pension rates and life expectancy of such veterans.

### SURVEY FINDINGS PROJECTED TO TOTAL NUMBER OF VETERANS ON NON-SERVICE-CONNECTED DISABILITY PENSION ROLLS

It was our conclusion that the results of our findings, based on the interview of 1,600 veterans, could properly be projected to the total pension roll and that the results would be reasonably reliable with respect to the financial status of all World War I, World War II, and Korean conflict veterans on the pension rolls. The States selected for the survey were in different sections of the country so that the data obtained might be reasonably representative of the various geographic portions of the Nation. The veterans to be interviewed within each State were selected from the files of the VA regional offices on a random basis, through the use of punchcard equipment, without knowledge of any details of individual cases. We extracted certain data from the selected veterans' claim folders in the VA regional offices, including home addresses where our representatives might locate the veterans for interview. The selection included veterans living in rural communities and suburban and urban areas. Accordingly, we are satisfied that the veterans interviewed represent a random sample without any element of selection bias.

It was concluded, therefore, that reasonably reliable results are obtained by projecting the findings on the 1,600 representative veterans to the entire roll of 677,330 veterans.

The projections were made by applying, to the 677,330 veterans, the percentages that the findings in the report of January 6, 1958, bear to the 1,600 veterans covered in our survey. The numbers and dollar amounts determined by the computations were rounded to tens unless otherwise noted in the report.

The projections of our survey findings on income, liquid assets, net worth, annuities and retirement benefits received, annuities and retirement benefits waived, income from other VA benefits, and years on pension rolls as related to years of military service are included in this report in 12 tables numbered to correspond to like tables in the survey report of January 6, 1958. The ages of veterans (table 13 in original report), projected to the 677,330 veterans, are included with other pertinent data in table 15 of this report. The employment status of veterans by age groups (table 14 in original report) and veterans' statements as to their ability to work at vocation (table 15 in original report), projected to the 677,330 veterans, are shown in tables 13 and 14, respectively, of this report.

## ESTIMATED FUTURE COST OF NON-SERVICE-CONNECTED DISABILITY PENSIONS TO BE PAID TO VETERANS CURRENTLY ON PENSION ROLLS

### *Estimated future cost of pensions to be paid to the 1,600 veterans included in survey*

In order to estimate the probable future cost of pensions to be paid to the total number of World War I, World War II, and Korean conflict veterans currently on the Veterans' Administration non-service-connected disability pension rolls, we first determined the probable future cost of pensions to be paid to the 1,600 veterans included in our survey. We recognized that the life expectancy of the pensioner would likely be less than the life expectancy for the male population of the United States as a whole. Accordingly, the Veterans' Affairs Committee obtained from the Veterans' Administration tables of expectation of life based on the most recently tabulated rates of mortality experienced among World Wars I and II veterans receiving pensions. These tables were used by us in making our computations of probable future costs of pensions to be paid to the 1,600 veterans. Our computations were based on pension rates payable under existing law,[1] the ages of the veterans, and the number of months that they had been on the pension rolls.

The ages of the veterans used in our computations were the ages furnished by the veterans at the time of interview. The period of time that each veteran had been on the pension rolls was obtained from the veteran's claim file in the VA regional office.

[1] $66.15 a month, increased to $78.75 a month on attainment of age 65 or after continuous receipt of pension for 10 years, except for those veterans in need of regular aid and attendance, where the rate is $135.45 a month.

The estimated future cost to the Federal Government of pensions to be paid to each of the 1,600 veterans included in our survey is shown in appendix 1.

*Estimated future cost of pensions to be paid to the 677,330 veterans*

The probable future cost to the Federal Government of pensions to be paid to the 677,330 veterans on the pension rolls as of July 31, 1957, was determined by projecting our computations of future pension costs for the 1,600 veterans, by age groups and length of military service, on an applicable percentage basis, to the 677,330 veterans. The projection was made on the assumption that the 1,600 veterans included in the sample were representative of all the veterans on pension rolls as to age and length of time heretofore on the rolls.

We are satisfied that the methods used in determining the estimated future costs are reasonable and set forth the order of magnitude of the future costs to the Federal Government of pensions to be paid to the 677,330 veterans during their remaining lifetimes. It should be emphasized, of course, that no recognition is given in these estimates to factors such as additional veterans being placed on the rolls or to changes in pension rates or qualification requirements for pensions. This future cost projection, totaling over $7.6 billion, is shown in table 15.

On the basis of our survey findings, approximately 38 percent, or 257,790, of the 677,330 veterans on the pension rolls as of July 31, 1957, had military service inside the United States only. Since the committee expressed an interest in the future cost of pensions to be paid to these veterans, in the light of pending legislation seeking to provide additional amount for overseas service we projected our computations on future pension costs to the estimated 257,790 veterans. The cost estimates, classified by age groups and length of military service and totaling over $2.8 billion, are shown in table 16.

The dollar amounts of our computations on future pension costs were rounded to thousands, unless otherwise noted in the report, and the number of veterans resulting from the projections were rounded to tens.

*Growth of veterans' pension program*

The report on veterans' benefits in the United States, by the President's Commission on Veterans' Pensions, Staff Report No. X, dated August 27, 1956, contains data which give an indication of the rapid growth of the veterans' pension program under existing laws. For ready reference, certain information contained on pages 217, 218, and 219 of Staff Report No. X (House Committee Print No. 288) is attached as appendix 2.

## Appendix 2

### *Estimated number of veterans on VA pension rolls—future years*

*a. Future pension loads under present laws*

The following summary table and chart showing the total estimated number of pensioners in selected future years demonstrates clearly that—barring any substantial changes in present laws—the big pension load composed chiefly of veterans and survivors of veterans of the "new wars" is yet to come. To the approximately 1 million pensioners of 1955, the next 5 years will add another half million, and the following 5 years nearly as much again. Thus, by 1965, the number of pensioners is expected to be double that in 1955. Within yet another 20-year span—by 1985—they are likely to number 3.6 million, roughly 3½ times as many as in 1955. (See chart V and table 9.)
